

Digisailor — Company Profile

Digital Transformation, IT Services & Industrial Automation

Compiled from Digisailor's public website and published company materials, for internal knowledge-base use.

1. Who Is Digisailor?

Digisailor is a globally recognized digital transformation and IT services company, founded in 2013 by Ilaiya Raja (Founder & CEO). Headquartered in Tuticorin (Thoothukudi), Tamil Nadu, India, the company has grown over more than a decade to maintain offices across India (Tuticorin, Tirunelveli, Chennai, Vilathikulam) and internationally in Singapore, Malaysia, Thailand, Australia, Sweden, Germany, the USA, and the UAE (Dubai).

The company employs a team of 120+ professionals and has serviced 800+ global clients across 2,500+ successful projects. Digisailor is ISO 9001:2015 and ISO 27001:2013 certified, reflecting its commitment to quality management and information security.

Digisailor's positioning has evolved from a broad digital transformation and IT services provider toward a specialized focus on Smart Factory & Industrial Automation solutions — helping manufacturers build smart factories through industrial automation, AI, and operational intelligence across 16+ industries.
